

- 12/2009 Atlanta New VIB AirTech^{Plus 6} for Japan**
 Non-disclosed customer has ordered a new VIB AirTech^{Plus 6} system for moisture control on their converting machine. The special high resolution spray system with 52 control zones is for curl and moisture control and will be handled through a new high resolution touch screen operator panel.
- 12/2009 Frankfurt New VIB AirTech^{VC} for Turkey**
 Vezirkopru Orman Urunleri A.S., Vezirkopru/Samsun, has ordered a new VIB AirTech^{VC} for their teabag paper machine. This special VIB spray is for moisture control. The control is done with a control panel with individual flowmeters.
- 12/2009 Frankfurt New VIB MoistureTech for China**
 OUMU Special Paper Mill, Zibo City, Shandong Province has ordered two VIB MoistureTech for their PM. This special decor paper moisture applicator is for smoothness and moisture control of the produced decor paper. The package comes complete with steam supply components and controls.
- 11/2009 Atlanta New VIB SteamTech for the US**
 Packaging Corp. of America in Valdosta, GA, has ordered a new VIB SteamTech for their PM 2. A larger rebuilt of the existing press section required replacement of the existing SteamTech with a new VIB SteamTech. The special SteamTech is for installation before shoe press and will be used for moisture control and production increase.
- 11/2009 Frankfurt New VIB MoistureTech for China**
 Huajin Special Paper Mill has ordered two VIB MoistureTech for their new PM. This special decor paper moisture applicator is for smoothness and moisture control of the produced decor paper. The package comes complete with steam supply components and controls.
- 11/2009 Atlanta Upgrade for VIB SteamTech in the US**
 International Paper in Campti, LA, has ordered upgrade for their existing SteamTech for automated control. This upgrade comes complete with new multitube connections for easy installment of the steam shower.
- 10/2009 Frankfurt 2x Steam & Condensate Upgrade and Engineering for Germany**
 Drewsen Spezialpapiere GmbH & Co KG in Lachendorf has ordered new steam & condensate system for their PM 2. This system is a major part in a complete rebuilt of the paper machine.
- Papierfabrik Louisenthal GmbH in Königstein has ordered upgrade for their steam & condensate system of PM 1. With this system Louisenthal will reduce energy consumption of their paper machine.
- 09/2009 Frankfurt New VIB AirTech^{Corr} for Germany**
 Kurt H. Schumacher KG in Ebersdorf has ordered a new VIB AirTech^{Corr} for their corrugating plant in Breslau/Poland. The VIB spray system is for moisture control and warp control of the produced board. The system will be controlled through an Operator Workstation (OWS) and will be integrated in the machine controls for production scheduling.
- 09/2009 Frankfurt IPS Upgrade for Germany**
 Stora Enso Maxau GmbH has ordered an upgrade for the IPS of their PM 8 SC paper machine. The system is complete with integrated CD control for moisture and will be connected with a OPC LAN with the new measurement system.

- 08/2009 Frankfurt 3x Steam & Condensate Upgrade and Engineering for Germany**
 Metsä Tissue GmbH in Stotzheim has ordered engineering and designing of their steam & condensate system to reduce energy consumption.
 M-real Zanders GmbH in Bergisch Gladbach has ordered upgrade for their steam & Condensate system of PM 1. The upgrade will improve paper production and flexibility of the dryer section. The redesigned system will save energy.
 Another upgrade for steam & condensate was ordered by Reno de Medici in Arnsberg for their KM 3.
- 08/2009 Frankfurt New VIB AirTech^{Corr} for Germany**
 Brohl Wellpappe GmbH & Co. KG in Trier has ordered a new VIB AirTech^{Corr} for their laminator. The VIB spray system is for moisture control and warp control of the laminated board. The system will be controlled through an Operator Workstation (OWS) and will be integrated in the machine controls for speed regulation.
- 07/2009 Frankfurt New VIB AirTech^{Plus 6} for Germany**
 Papierfabrik Meldorf GmbH & Co. KG has started up a VIB AirTech^{Plus 6} system for their PM 3 four weeks after order. The VIB control for AirTech and existing SteamTech was started up and the produced liner was immediately back on spec.
- 07/2009 Frankfurt Two upgrades for VIB SteamTech for Poland and South Africa**
 Mondi Limited Richards Bay Mill has ordered a new VIB IPC (Integrated Process Controller) to upgrade their PM 2.
 Stora Enso Poland S.A. Ostroleka Mill has ordered a new VIB IPC (Integrated Process Controller) for their PM 2. This upgrade is for OPC LAN connection to the new mill process system.
- 06/2009 Atlanta New VIB AirTech^{Plus 6} for the US**
 Non-disclosed customer has ordered a new VIB AirTech^{Plus 6} system for moisture control on their converting machine. The special high resolution spray system with 54 control zones is for curl and moisture control and will be handled through a new high resolution touch screen operator panel.
- 06/2009 Frankfurt New VIB MoistureTech for China**
 OUMU Special Paper Mill, Zibo City, Shandong Province, has ordered another new VIB MoistureTech for their existing decor paper machine. This MoistureTech is for smoothness and moisture control of the produced decor paper. The package comes complete with steam supply components and controls.
- 06/2009 Frankfurt Two upgrades for VIB AirTech^{Classic} systems for Germany**
 SCA Packaging Containerboard Deutschland GmbH in Witzenhausen has ordered a new IPS (Integrated Process Station) to upgrade the existing VIB AirTech^{Classic} spray system. The new process station will have a server incl. control package and connection to the measurement system.
 Another upgrade with IC (Integrated Control) and IPS (Integrated Process Station) comes to Kübler & Niethammer AG in Kriebstein for their VIB AirTech^{Classic} spray system.

- 05/2009 Atlanta New VIB SmoothTech for the US**
North Pacific Paper Corp., Longview, WA, has ordered a new VIB SmoothTech for their PM 3. This steam shower is for smoothness control of the special newsprint which is produced on this machine. The steam shower with 114 zones will be controlled with an ECS station and connected to the machine control system.
- 05/2009 Frankfurt New VIB MoistureTech for China**
OUMU Special Paper Mill, Zibo City, Shandong Province, has ordered a new VIB MoistureTech for their decor paper machine. This MoistureTech is for smoothness and moisture control of the produced decor paper. The package comes complete with steam supply components and controls.
- 05/2009 Atlanta New VIB SteamTech^{FF} for the US**
Smurfit-Stone Container Enterprises Inc., Fernandina Beach, FL, has ordered a new VIB SteamTech^{FF} for their PM 4. This SteamTech will replace an old VIB Steamprofiler unit. The system comes with 88 control zones for high resolution moisture control. The special Teflon coated SteamTech can be easily cleaned with high pressure showers.
- 04/2009 Atlanta New VIB AirTech^{Plus 6} for the US**
Smurfit-Stone in West Point, VA, has ordered a new VIB AirTech^{Plus 6} system for moisture control on their PM 1. This special high resolution spray system with 2" zone definition will be integrated in the existing DCS system for CD moisture control.
- 04/2009 Frankfurt New VIB GlossTech for Hungary**
Non disclosed customer has ordered two VIB GlossTech systems for moisture control in the online process. The system is for manual control, to control top and bottom side of the running web.
- 04/2009 Frankfurt New VIB AirTech^{Corr} for Switzerland**
Model Emballages SA in Moudon has ordered a new VIB AirTech^{Corr} for their corrugator. The VIB spray system is for moisture control and warp control of the produced board. The system will be controlled through an Operator Workstation (OWS) and will be integrated in the machine controls for production scheduling.
- 03/2009 Frankfurt New VIB AirTech^{Coater} for Spain**
Alier S.A. in Rosello, Spain, has ordered for their PM 2 a new VIB AirTech spray system to increase moisture in the online process. This special sprayboom has an integrated steam heatable drip pan.
- 03/2009 Frankfurt New VIB SteamTech^{SC} for Turkey**
Ucal Tissue A.S. in Istanbul, Turkey, has ordered a new VIB SteamTech^{SC} for their yankee tissue machine. The special high resolution steam shower with 87,5 mm zones is for moisture control and production increase. The system is complete with integrated control and will be connected to the moisture measurement system. This special tissue steam shower is Teflon coated for easy high pressure cleaning.
- 02/2009 Frankfurt New VIB SteamTech^{SC} for India**
Khanna Paper Mills Pvt. Ltd. in Amritsar, India, has ordered a new VIB SteamTech for their PM 5. This high resolution steam shower with seventy 100 mm zones will be integrated into new QCS network. The steam shower is for moisture control and production increase. The SteamTech is Teflon coated for easy cleaning with high pressure showers.

02/2009 Frankfurt Retro Upgrade Control Valves for Germany

Stora Enso Maxau GmbH has ordered new control valves to replace competitive valves. The special VIB actuators are mounted with an adapter kit to the existing competitive press steam shower. The system will be controlled with an ECS+ cabinet and will be connected to the new measurement system.

02/2009 Frankfurt New VIB AirTech^{Classic} for Germany

Stora Enso Maxau GmbH has ordered for their PM 7 newsprint machine new VIB spraydampener to upgrade the existing AirTech^{Classic} system. The system is complete with Integrated Process Station (IPS) for CD control and will be connected to the new measurement system of the paper machine.

01/2009 Frankfurt Steam & Condensate Upgrade for Germany

SCA Hygiene Products GmbH has ordered upgrade for their steam & condensate system of PM 3. The upgrade will improve paper production and flexibility of the dryer section. The improved system will further save energy in the production.
